We handle your brand with care!

Your brand in best position. TUUBA 500.

16 Millionen tables in your hand.

The TUUBA RGB Light in combination with a remote control gives a rainbow color illumination in your hand.

Lounge table

TUUBA 500 half tube. Illuminates your comfort zone.

TUUBA[®] ORIGINAL

Suited to any occasion! The bar table TUUBA is as flexible as your creativity. For cocktail reception or trade shows. As lounge or bar furniture. The table TUUBA sets the benchmark with simple stylishness. The timeless and linear shape is applicable for all fields.

An individual caption on its translucent corpus makes it even more exclusive.

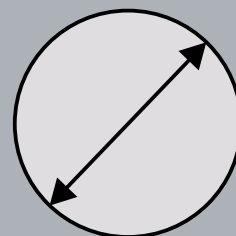

Moreover, applications can be expanded through various wireless illumination systems that light the table from inside.

As manufacturer we offer exclusively original accessories produced on the basis of our high quality requirements. Of course, you can purchase the exquisitely crafted caption or wide-format printing directly at our firm.

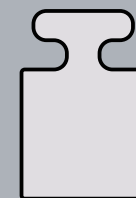

It goes without saying that our team shall be available for any detailed questions. For example, we advise you on the matching of colors in combination with your logo or on the remote control of the illumination systems. Of course, resellers and distribution partners will receive individual conditions.
